LATEX FREE DECLARATION

WOLTURNUS A/S – SUPPLY OF LATEX FREE DEVICES

Upon request, Wolturnus A/S can supply manual wheelchairs, which are completely latex free.

The material of the following components produced in-house at Wolturnus A/S are latex free: the frame, the back upholstery, the seat upholstery, the footplate.

Supplying a latex free device, results in certain restrictions regarding the choice of e.g. sideguards, push rims, tires, headrest cushions, wheel locks etc..

Wolturnus A/S is able to advise on the correct selection of latex free options/ accessories.

Providing tailor-made products with a wide range of options and accessories, Wolturnus A/S is capable of assessing a single device's material composition, charging an additional fee of 1.206,00 EUR for a thorough analysis.

Wolturnus A/S herewith confirms that Wolturnus products do not come into contact with latex molecules during the manufacturing process and that the material provided to pack and protect our products during shipping is latex free.

If you have any question regarding the Wolturnus A/S products, please do not hesitate to contact me.
