Klaxon's Latex Free Products

Klaxon Mobility GmbH have reviewed all raw material and components on our products to identify if any material or ingredients used to produce our products could contain latex or similar natural rubbers.

The material used to manufacture the Klick and Twist products, such as the frames, grips, wheels, is latex free.

We also confirm that the material provided to pack and protect our products during shipping is not formulated with or do not contain any latex natural rubber or any dry natural rubber.

If you have any question regarding the Klaxon's products, please feel free to call or email me at your convenience.

A handwritten signature in black ink, appearing to read 'Antonio Benedini', is written over a solid horizontal line.

ANTONIO BENEDINI (Chief of Development Officer)
